

The background features a light blue and white color scheme. In the top right, there is a large blue circle with a smaller, lighter blue circle inside it. Below this, towards the center, is a smaller version of the same concentric circle design. In the bottom right corner, there is another large blue circle with a smaller, lighter blue circle inside it. Thin blue lines radiate from the top left and top right corners towards the center, framing the central text box.

# SAT 10 Practice Questions for Kindergarten Common Core

*or Great Questions for Students to Practice Skills for  
Standardized Tests*

ANSWERS

A

G

E

Go to *Sat 10.com* for your free one week trial of online SAT 10 practice. Every practice test displays new questions!

This is also available for parents to purchase, which I strongly encourage. 😊

**From Bright Education Testing Centers:** Our classroom site license is valid for a full year of access and pricing starts as low as \$2.97 per student for the workbook, \$3.97 per student for the online tests, and \$4.97 per student for both. Substantial quantity discounts (up to 83% off our regular pricing) are available for classroom and school licenses.

## Ways I use these ‘paper’ questions:

- Show parents examples of test questions at open house and conferences. Encourage them to purchase the home license.
- Print out and laminate questions. Keep in a trivia jar or on a ring, and review during waiting times or while traveling to a destination
- Teach test taking skills...specifically bubbling in ONE answer, the process of elimination, and rereading – or listening again online
- Copy and Paste into a power point presentation. Students use white boards to answer questions for a quick 5 to 10 minute review.

Hoping this makes your day easier and your students smarter!
